

Study with us at the Institute of Risk Management

Our qualifications and training will help you to:

- Recognise and manage risk more effectively
- Embed risk management as a vital project management tool
- Enhance health and safety policies and practices
- Improve the certainty of delivering a project to an agreed schedule and budget
- Get qualified and use globally recognised designations; and
- Keep your staff competent and current - whatever their role in risk.

What are the benefits for you?

Membership

Join us as a member and reap the rewards of being part of a global network of Enterprise Risk Management professionals, continuing professional development and a wealth of knowledge, publications, events and more.

Training & Qualifications

Ensure your risk management staff and procedures are competent and current – we offer a suite of courses, from a one day Fundamentals of Risk Management for newcomers, to globally recognised professional diploma level qualifications.

"I became a member of IRM to help support my learning with the wealth of experience, information and like-minded professionals from whom to seek guidance and advice".

Viv Turner, Project HSE Manager
MidMac Contracting Qatar

"Studying with IRM has enabled me to effectively apply the theory of risk management in a useful, practical way. The course material has not only enhanced my understanding of the principals of risk management but has also allowed me to continuously improve the way I approach and actively manage risk within my own organisation".

Siobhan Crawford
Sector Risk Analyst, Crossrail
